

CITY WIPES OFF SLATE OVER \$18,000,000 IN UNCOLLECTABLE TAXES

Amount Owed by 92,844 Persons Will No Longer Be Carried as an Asset.

The Board of Estimate to-day ordered wiped from the city's books personal taxes aggregating \$18,497,235.94, which had been carried as an asset for eleven years. The action of the board followed a communication from Corporation Counsel Hardy, who, with the concurrence of Comptroller Prendergast, transmitted a list of uncollectible items for the years 1899, 1900, 1901, 1902, 1903, 1904 and 1905.

It is explained that the list is submitted in order to carry out, in part, the provisions of chapter 601 of the laws of 1915.

This law permits the Board of Estimate to authorize the elimination of a large amount of uncollectible personal taxes from the records of the city.

Inasmuch as payments of these taxes cannot be enforced, it was recommended that the Receiver of Taxes be directed to cancel them so that they shall not be carried as an asset of the city. There are 92,844 names in the list of uncollectible persons.

A representative of the United Real Estate Owners' Association, who was at the meeting, said:

"When the city couldn't collect these claims, why didn't it turn them over to an auctioneer and have them sold to the highest bidder?"

"As President of the Board of Aldermen, I would have to try the auctioneer if he sold such claims," said Acting Mayor Dowling. "Every one knows those claims aren't worth 30 cents a wagon-load."

"Well, I'd give \$50 for them," said the real estate man.

"There is no statute authorizing us to sell the claims," said Borough President Mathewson.

BUYS WATER TO AVERT FAMINE IN BROOKLYN

Ten Million Gallons a Day to Be Procured From Private Companies.

Lack of rain has created such a serious shortage in the water supply of Brooklyn and Queens that the Board of Estimate to-day authorized the Commissioner of Water Supply, Gas and Electricity to purchase 14,000,000 gallons a day from private companies until the situation is relieved.

Brooklyn has been subsisting to a great extent on private water and will continue to do so until the Catskill Aqueduct is finished, the connection between Manhattan and Brooklyn ready and the mains opened. This will be some time before the first of next year.

Commissioner Williams is authorized to obtain 5,000,000 gallons per day from the Queens County Water Company at \$9 a million gallons and 5,000,000 gallons from the Urban Water Company at \$5 a million gallons.
